SAN FRANCISCO, Oct 11. The Cornell watch manufactory will be removed from Chicago to California, on account of the equal climate.

Ralston, James Stanford, Parrott, and Donahue are stockholders in the Salinas Valley railroad just completed.

Buisley, the eronaut, fell from a balloon to-day, and was seriously but not fatally injured.

CARIBOU, Col., Oct. 11. A tremendous nitro-glycerine explosion occurred at the Sherman mine in Caribou at 11 o'clock last night, totally destroying the building. A. Arnold and H. W. Foreman, part owners of the mine, were sleeping in the building. Arnold was killed, but Foreman escaped with slight injuries. It is supposed that a spark fell into some loose powder in one corner of the build-ing and exploded it and the concussion exploded the nitro-glycerine.

WASHINGTON, Oct 11. About 2:30 o'clock yesterday afternoon a frightful accident, resulting in the death of Edward P. Sypher, occurred at the navy yard, while engaged in setting the guides of a large circular saw at one of the ship houses. The punch which he was using slipped, causing him to lose his balance and fall against the saw which mangled him in a frightful manner. The top of the skull was cut off, and the brains thrown in every direction. The right arm was completely severed near the shoulder and the left hand frightfully lacerated. Syphe, was about 35 years age, and came from Bordentown,

n. J., a few months age it; run the N. J., which caused his death. Weston's third failure in the attempt to walk 500 m. des in six days, was concluded at twei; e o'clock last night, he having accomplished but 346 miles of the 500.

Detectives of the secret service force, who, for some time have been engaged in ferreting out a band of counterfeiters who have been flooding the city with spurious bills of every denomination, captured Joe Quinna, a notorious thief and counerfeiter, on Friday night, and last night arrested an accomplice, James Dunson, proprietor of a liquor store, on the corner Bleeker and Woosterd

The officers had obtained the conidence of these men and prepared a trap for them, and seized Dunson's premises and captured about \$10,000

of the "queer." Detectives started for Philadelphia to-day to arrest a man who is manufacturing the counterfeit paper.

New York, Oct. 11, A Herald special from New Orleans says the situation is very crit-ical and the citizens look for renewed hostilities any moment. Governor Kellogg still remains at the state house, guarded by a company of infantry and policemen, but notwithstanding his efforts to appear serene he looks careworn and uneasy. The White Leaguers are very deflant, and continue their demonstrations almost nightly, in spite of the efforts of the leaders to restrain them. Several evening papers report that Friday evening, after the close of the Republican primaries, a Radical mob became disordered in the suburbs and defied the Radical police, when Col. Arget's battalion of "Louisiana" Own," an organization not identified with the White League, but whose members are enrolled for

defence against colored lawlessness, marched out to the assistance of the the rioters and restore order. The fact that this force, which participated with the White League in the events of September 14th, were the first to step to the aid of the Metropolitans whom they fought on that day, is quoted as evidence that the armed whites are enrolled for protection to life and property and oth-

er than for aggressive movements, No further developments looking to groes from Memphis pouring into the upper part of Louisiana to regis-ter, and that State is being colonized Alabama, who are registering.

A letter from Madison parish, where at the last election, the whiteand black vote was nearly equally divided, informs one of Kellogg's officials that the registry so far re- different parties as to effect none se ords 200 white voters against 2,300 During the past year fifteen thou-sand negroes have emigrated from

other States into Louisiana, and if they vote next month with the Kellogg party they will carry the State. DENVER, Oct 10. A peculiarly distressing case of suicide occurred at Greeley, Colorado, at an early hour yesterday morning. Miss Lizzie Rous, a highly esteemed young lady, about twenty years of age, shot herself in the breast, the ball glanced downward into the stomach, where it lodged. Fearing the first shot was not fatal, she placed the pistol to her temple and sent a ball crashing through her brain. The first shot alarmed the household, the second following so quickly before her apartments could be reached, where she was found the blood gushing from her mouth end ears, and ghastly wounds in the head and breast. She lingered an hour and then died in great agony. Disappointment in love was the incentive to the leed, she having just heard of the marriage in New York of a young man to whom she was police and aided them to disperse having existed between them for some time

WASHINGTON, Oct. 10.

The Supreme Court of the United States will meet next week. Among the most interesting cases is that of Phillips against Payne, appealed from the Supreme Court of this distriet, which involves the legality of the retrocession of Alexandria city and county from this district to the state of Virginia. The Supreme Court of the district affirmed the validity of the transfer. Judge Willoughby, who represents the appel-lant, will shortly make application to the Supreme Court to advance the case on the calender. He has consulted the Attorney General, who thinks it of grave importance that the case should be early decided. The points on which the appellants rely are first, that when accepting the session of Alexandria, Virginia, it became part of the permanent capital of the United States, and Congress had no eonstitutional right to pass a law changing that relation. Second, that the act of retrocession is invalid, because it was made dependent for its force and effect upon the votes promulgated an order for the entire of a majority of the voters of Alexreorganization of the mail service andria, and Congress had no power of the United States.
